# Cuyahoga Falls

## Life is Better Here!

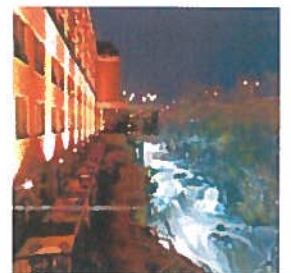

**Welcome to the great city of Cuyahoga Falls! Established in 1812, we are known for our nationally-recognized services, low utility rates, superior safety forces, award-winning programs and abundant recreational opportunities. Cuyahoga Falls is a shining example of solid principles and core values, and continues to thrive and grow as a community that offers big city services with small town amenities. Electric, water, and sewer rates average over \$700.00 less per year for a family of four than surrounding communities. Our strongest point is our commitment to pro-active neighborhood excellence with outstanding citizen involvement in all areas of town.**

**With 50,000 residents, the City of Cuyahoga Falls continues to pursue aggressive growth strategies with a strong vision for the future. We are proud of our wonderful \$26 million state-of-the-art Natatorium Fitness & Wellness Center. We encourage residents and visitors alike to join us in the heart of our town at our magnificent public festival and special event site known as Falls River Square. We are the home of Blossom Music Center, the professional 18-hole Brookledge Golf Course, the famous outdoor WaterWorks Family Aquatic Center and over 48,000 acres of Cuyahoga Valley National Park.**

**Featuring turn of the century homes and new upscale developments, our community offers a variety of housing options for the new family, empty nesters and everyone in between. We are very proud of our Cuyahoga Falls and Woodridge public school systems, and we also offer many private and parochial school choices. All of our school administrators and teachers strive for academic excellence to make sure our students, who are our future, are the very best they can be.**

**As Mayor of this exceptional City, I encourage you to "Experience the Falls" and share in all of the reasons that "Life is Better Here" A progressive city with family values, Cuyahoga Falls is truly the best place to call home.**

## About Us

Young Professionals of Akron is a local non-profit organization that strives to connect young professionals with one another through a combination of community involvement and social activities. Our goal is to engage young professionals in what's going on around town and motivate them to get more involved in their community because the more invested young professionals are in Akron, the more likely they will stay and call Akron home.

YPA was founded in October 2002. Akron-area young professionals started this organization in response to survey results by Next Generation Consulting founder, Rebecca Ryan. When asked what factors were most important in choosing a place in which to live and work, YPA identified community involvement, inclusiveness and networking opportunities. More than a decade later, these factors are still what drives YPA's mission and goals.

## Mission & Goals

The mission of YPA is to connect young professionals and encourage involvement within the Greater Akron community.

- Expand professional and personal networks through social and community events.
- Invest in the community through volunteerism and support of local business.
- Engage in new opportunities through the introduction to new and existing resources.
