

CITY OF CUYAHOGA FALLS, OHIO

February 26, 2021

**ADDENDUM NO. 2**

To the Drawings and Specifications For

***SUMMIT DD FRONT STREET PARKING EXPANSION***

TO ALL BIDDERS:

This Addendum supplements and amends the original Plans and Specifications and shall be taken into account in preparing proposals and shall become a part of the contract documents as follows:

- Revised Engineers Estimate is \$689,245.02
- Proposal pages 4.1.1\* & 4.1.2\* have been replaced with attached **4.1.1\* (revised 2/26/2021)** and **4.1.2\* (revised 2/26/2021)**
- The unit for 304 Aggregate Crushed Limestone Base has been corrected to CY from SY
- Items for #8, #57 and #2 stone are now referenced as 703.01
- Lengths of fence have been corrected
- Item has been added for Brick Piers for Fence, each. This will be for installation of the brick piers, complete, as shown in Detail 6/13 on Sheet L-102
- Brick Piers will have brick faces on all sides. Therefore, CMUs do not need to have smooth finish as they will be covered with brick faces
- Precast concrete caps on brick piers shall overhang minimum 2" from brick faces
- The 16' spacing for brick piers is nominal, and may be adjusted in the field by the Engineer based on conditions encountered. For example, the spacing of the brick piers near the existing tree to remain may need to be adjusted to not cause harm to the tree
- Approved alternates will be allowed to the specified Belgard permeable pavers, provided documentation is furnished that shows the alternates have equal or better material, drainage and durability characteristics as the Belgard pavers
- Fences shall be free standing and not attached to the Brick Piers.
- Brick Piers shall be 7 feet high for the Privacy Fence, and 5'4" at all other locations

**END OF ADDENDUM #2**

# Acknowledgement of Receipt of Addendum No. 2
